

3RD GENERATION AND STILL ON TOP

Doug Henry and Foliage Concepts have been landscaping throughout the Metropolitan Detroit area for over 3 decades and are still making the news. Doug, his father and his grandfather have worked their entire lives making Downriver beautiful. Past accomplishments include receiving the prestigious Presidents' Plaque from the Keep Michigan Beautiful Commission for award winning landscaping designs.

This year (2016) three homes landscaped by Foliage Concepts in Wyandotte were given Residential Beautification Awards. Winning designs were chosen by the Wyandotte Beautification Commission and based on Color, Texture, Creative Design, planting, variety, hardscape elements and maintenance. Doug always attributes awards won to his creative, hardworking staff, especially the company's Supervisor, Agustin Flores, a career accomplished landscaper.

Landscaping and spirituality are connected for Doug and he enjoys sharing this passion with every homeowner he works with. The size of the job does not matter to Doug and his crew, they are treated with love, passion and hard work.
